**4th March until  
2nd April 2022**

Vernissage: Saturday, 12th March, 11:00 - 20:00  
Daily: 11:00 -18:00, closed Mondays

The “Horizons” art exhibition aims to open our eyes to new horizons, visually and through new insights. We hope to raise funds for the development organisation [Horyzon](#), which supports socially disadvantaged youth in Colombia, Haiti, Palestine, South Sudan and Uganda. [Horyzon](#) has been committed to helping young people affected by violence, poverty and exclusion for over 50 years.

The exhibition will feature works ranging from abstract paintings, photographs, figurative works, photo collages, ink drawings, as well as sculptures of artists from England, India, Italy, Japan, South Africa and Switzerland. These artists express their global solidarity to support the plight of the youth, struggling at an existential minimum, to stay afloat, in these highly politically unstable countries.

Through this initiative, we hope to support the positive growth of young lives in dire situations, as well as artists who have experienced their own struggles, during the pandemic.
